

Student Name	test
Assessment Date	05 Jun, 2026
Contact Number	41255653
Email Address	test@mailinator.com
Course Enrolling Into	SIT40521 – Certificate IV in Kitchen Management

Introduction

Northwest Institute PVT LTD is here to offer you suitable assistance throughout your training experience. Many of the units which form part of the selected course require that you have adequate language, comprehension, writing, numeracy and digital skills in order to achieve competence. This assessment provides a method of assessing these skill levels and helps us determine the learning approach that is most suited to your specific needs.

Northwest Institute PVT LTD will review your assessment results together with the information gathered during your enrolment interview. If your skills do not meet the entry requirements, Northwest Institute PVT LTD may decide to refer you to another training provider for specific training in language, literacy, numeracy and digital skills.

This strategy has been implemented to ensure that you are given the best opportunity to achieve competence and ultimately obtain the skills in your chosen field. We wish you every success in your assessment.

Instructions

1. The learner must attempt all questions in the Core Skills Indicator (CSI) Assessment.
2. If they have indicated on their Enrolment Application form, or during their Enrolment Interview that they have a disability, impairment or long-term condition, you as the Trainer and Assessor is to contact the learner via telephone to organise a time to undertake the assessment online.
3. Check that the learner has signed the student declaration.
4. Prepare a Support Plan, or refer the learner to appropriate services, as per our Individual Learner Needs policy, where required.

Activity 1

Read the following information and provide a response to the questions below.

Safe Chicken Handling

Handling chicken safely is one of the most important steps in food preparation. Raw chicken can contain harmful bacteria such as Salmonella or Campylobacter, which can cause food poisoning if not handled correctly. Good hygiene helps prevent these bacteria from spreading to other foods, surfaces, or utensils in the kitchen.

Always store raw chicken in the refrigerator at 5°C or below, and keep it separate from ready-to-eat foods such as salads or fruit. This prevents cross-contamination. Chicken should be kept in a sealed container or on the bottom shelf so juices do not drip onto other food.

Before and after handling raw chicken, wash your hands thoroughly with warm water and soap. Use separate chopping boards and knives for raw and cooked foods. All utensils, benches, and cutting boards should be cleaned and sanitised immediately after use.

When cooking, make sure chicken is fully cooked through, with no pink flesh and clear juices. A food thermometer can help check that the internal temperature has reached at least 75°C. Any leftover chicken should be cooled quickly, refrigerated, and eaten within two days.

By following these steps, food handlers can keep customers safe, maintain hygiene standards, and meet Australian food-safety regulations. Safe handling protects both the business and its reputation by reducing the risk of contamination or illness.

1. Why is it important to handle raw chicken carefully?

- A. Because it spoils quickly when frozen
- B. Because it may contain harmful bacteria that cause food poisoning ✓
- C. Because it changes the colour of other foods
- D. Because it cooks faster than beef ✗

2. Where should raw chicken be stored in a refrigerator?

- A. On the top shelf, near ready-to-eat foods
- B. In a sealed container on the bottom shelf ✓
- C. Next to fruits and vegetables
- D. Anywhere, as long as it is cold ✗

3. What is the safest way to prevent bacteria from spreading when preparing chicken?

- A. Use the same cutting board for all foods ✗
- B. Rinse the chicken before cooking
- C. Wash hands and use separate equipment for raw and cooked foods ✓
- D. Leave chicken at room temperature before cooking

4. When checking if chicken is fully cooked, what temperature should the centre of the meat reach?

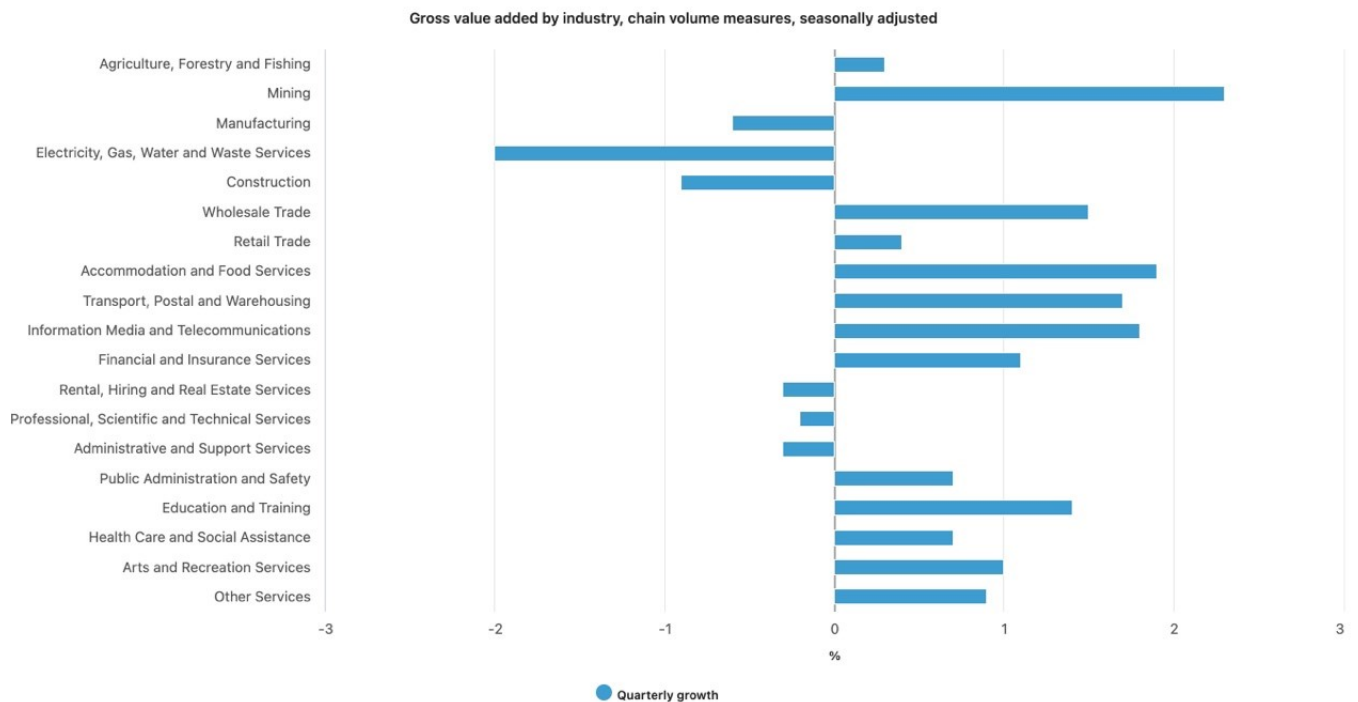

- A. 55°C
- B. 65°C ✗
- C. 70°C
- D. 75°C ✓

5. How soon should leftover cooked chicken be eaten to stay safe?

- A. Within 12 hours
- B. Within 1 day
- C. Within 2 days ✓
- D. Within a week

Activity 2

Read the information presented in the graph below and provide a response to the following questions.

Source: Australian Bureau of Statistics, Australian National Accounts: National Income, Expenditure and Product June 2025

1. Which industry shows the highest quarterly growth according to the graph?

- A. Construction
- B. Mining ✓
- C. Information Media and Telecommunications
- D. Retail Trade ✗

2. Which industry recorded a negative quarterly growth rate?

- A. Electricity, Gas, Water and Waste Services ✓
- B. Manufacturing ✗
- C. Accommodation and Food Services
- D. Health Care and Social Assistance

3. Based on the graph, which industry is closest to zero growth (neither increasing nor decreasing)?

- A. Administrative and Support Services
- B. Professional, Scientific and Technical Services ✓
- C. Education and Training ✗
- D. Public Administration and Safety

4. If the Accommodation and Food Services industry grew by almost 2%, while Retail Trade grew by 0.5%, how much faster did Accommodation and Food Services grow compared to Retail Trade?

- A. Twice as fast ✗
- B. Half as fast
- C. Four times as fast ✓
- D. One-quarter as fast

5. What general trend can be observed from the graph?

- A. Most industries show positive growth. ✓
- B. All industries show equal growth across the quarter.
- C. Mining is declining while services are growing.
- D. Every industry shows negative growth overall. ✗

Activity 3

Provide a response to the following questions – you may use a calculator if you wish.

1. $150 - 72$

A. 123 ✗

B. 87

C. 222

D. 78 ✓

2. $33 + 85$

A. 99

B. 66 ✗

C. 118 ✓

D. 151

3. 5×5

A. 10

B. 25 ✓

C. 0 ✗

D. 1

4. 3×8

A. 5 ✗

B. 11

C. 20

D. 24 ✓

5. $1000 \div 5$

A. 250

B. 500

C. 150 ✗

D. 200 ✓

Activity 4

Instructions: Answer all questions. Select one answer (a, b, c or d) for each question.

1. A document is stored in the cloud and the sharing setting is “Anyone with the link can edit”. What is the main risk?

- A. Only the owner can open the document
- B. The document cannot be downloaded
- C. Anyone who gets the link could change or delete the content ✓
- D. The document will be automatically printed ✗

2. During an online class, you cannot hear the teacher. Which action is most likely to fix the problem?

- A. Turn the screen brightness up
- B. Check the meeting volume or speaker settings and make sure you are not muted ✓
- C. Turn off Wi-Fi permanently ✗
- D. Change the background image

3. In a web browser, what does the padlock (lock) icon next to a website address usually indicate?

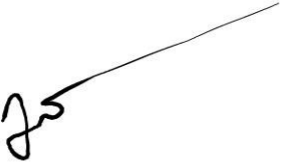

- A. The website is definitely trustworthy
- B. The website will not collect any data
- C. The connection to the website is encrypted (HTTPS) ✓
- D. The website is government-owned ✗

4. In a spreadsheet, which formula adds the values in cells A1 to A5?

- A. =ADD(A1-A5)
- B. =TOTAL(A1,A5)
- C. =SUM(A1:A5) ✓
- D. =A1+A5

5. You accidentally deleted a file on your computer. What is the first place you should check to restore it?

- A. The Recycle Bin/Trash ✓
- B. The internet browser history
- C. The keyboard settings
- D. The printer queue

A handwritten signature in black ink, consisting of a stylized 'J' followed by a long, sweeping horizontal line that extends towards the right edge of the box.
