| Delivery mode               | Face to face (Classroom based)                                                                                                                                                                       |
| Duration                    | 104 weeks, including 88 study weeks and 16 weeks of holidays                                                                                                                                         |
| Specialization (if any)     | Cyber Security                                                                                                                                                                                       |
| Study load                  | 20 hours per week in the classroom                                                                                                                                                                   |
| Estimated Self-Study Hours  | 5 hours per week (may be more or less depending on learner's pre-existing skills and knowledge)                                                                                                      |

**NATIONALLY RECOGNISED  
TRAINING**

**TOTAL COURSE  
FEE: AUD 21,000**

**TUITION FEE:  
AUD 20,000**

**MATERIAL FEE:  
AUD 250**

**APPLICATION FEE:  
AUD 750  
(NON-REFUNDABLE)**

(Application fee is non-refundable under all circumstances. Please refer to Northwest Pty Ltd.'s refund policy and procedure for further details)

## ICT60220 ADVANCED DIPLOMA OF INFORMATION TECHNOLOGY

This qualification reflects the role of individuals in a variety of information and communications technology (ICT) roles who have significant experience in specialist technical skills, or managerial business and people management skills.

Individuals in these roles carry out complex tasks in a specialist field, working independently, leading a team or a strategic direction of a business. They apply their skills across a wide range of industries and business functions, or as a business owner (sole trader/contractor).

*The skills required for these roles may include, but are not restricted to:*

- Advanced data management information: creating, designing and monitoring complex systems that store data, and optimising organisational knowledge management
- Cyber security: protecting sensitive data and information through security architecture, and developing disaster recovery and contingency plans
- Full stack web development: building advanced user interfaces, developing representational state transfer application program interfaces (REST APIs) and designing user experience solutions
- Further programming: applying advanced ICT languages to maintain security and manage data
- IT strategy and organisational development: managing and communicating strategic ICT business solutions
- Systems development and analysis: modelling and testing data objects, data processes and preferred ICT system solutions
- Telecommunications network engineering: managing logistics, organisational specifications, regulations and legislative requirements across network projects

This program is designed for individuals includes international learners over the age of 18 wanting to further their education in the cyber security industry. Students may have little or no experience in the cyber security industry. The qualification is also designed for those looking for a role of technical specialist with high level skills and knowledge in cyber security using internet protocol (IP) systems who can:

- Forecast network growth for enterprise network planning
- Implement convergence technologies in cyber security

## **COURSE ENTRY REQUIREMENTS:**

There are no pre-requisites for any of the units of competency contained within it. This course is available to all international students and Northwest Pty Ltd. requires that students are able to provide evidence that they:

- Have demonstrated an IELTS level at score of least 6.0 or equivalent (test results must be no more than 2 years old) or demonstration of successful completion of at least General English at Advanced Level or English for Academic Purposes Upper Intermediate level.
- Have a suitable level of language, literacy and numeracy to complete course requirements with or without additional support that Northwest Pty Ltd. is able to provide.
- Have successfully completed Australian year 10 or equivalent.
- Are at least at age of 18 on the date of course commencement.

**Please Note:** All the students commencing this course are required to complete LLN test on the orientation day to assist Northwest Pty Ltd. to identify student's needs for additional support during their study with Northwest Pty Ltd.

### **ADDITIONAL ENTRY REQUIREMENTS:**

- Student must have access to working PC or laptop with a configuration suitable to meet study requirements. Please seek your trainer/assessor assistance in this regard.
- Student must have sound digital literacy and access to working internet.
- Student must be able to attend scheduled theory classes and classes to be conducted in simulated environment face to face only.

### **ORIENTATION:**

New student Orientation will be done face to face only. New students will receive an e- mail and call from the Admissions department on the Friday, prior to their date of commencement with all necessary further information and instructions. If you have any questions regarding this process, please contact [+61449955272](tel:+61449955272) or [applynow@northwest.edu.au](mailto:applynow@northwest.edu.au). Please email or call the student administration should you require any additional support.

### **CLASSES:**

All classes will be conducted face to face at the student's respective campus of enrollment.

### **ASSESSMENT:**

Assessment tasks will vary for each unit of competency. The Trainer or Assessor will explain the assessment requirements and due dates in class. Late submission fees applies if the assessment is not submitted on or before the due date.

### **SUPPORT:**

All staff at Northwest Pty Ltd will continue to work and will continue to provide the students with the support any individual may need. The student will be remained connected with each trainer/assessor through regular class participation to assist them continuing their studies.

## **PATHWAYS**

*The further study pathways available to students who undertake this qualification include:*

- Higher education degree in Cyber Security provided learner meet the entry requirements of the proposed qualification at other higher education provider.

*Employment pathways:*

**1**

**CYBER  
SECURITY  
ADMINISTRATOR**

**2**

**NETWORK  
SECURITY  
ANALYST**

**3**

**NETWORK  
SECURITY  
SPECIALIST**

**4**

**E-SECURITY  
SPECIALIST**

**5**

**ICT SECURITY  
SPECIALIST**

**6**

**IT SECURITY  
ADMINISTRATOR**

**7**

**IT SECURITY  
ANALYST**

**8**

**IT SECURITY  
SPECIALIST**

## **COURSE STRUCTURE:**

A total of 16 Units (6 Core and 10 electives) must be completed and deemed competent to achieve the qualification ICT60220 Advanced Diploma of Information Technology (Cyber Security). Participants who achieve competency in any unit/s will receive a Statement of Attainment (provided USI is verified) for that unit/s without completing all 16 units in the qualification. Students completing all the required units of competency will attain full qualification.

| CODE              | TITLE                                                                            | CORE/ ELECTIVE |
|-------------------|----------------------------------------------------------------------------------|----------------|
| <b>BSBCRT611</b>  | Research and apply concepts and theories of creativity                           | Core           |
| <b>BSBTWK502</b>  | Lead and manage team effectiveness                                               | Core           |
| <b>BSBXCS402</b>  | Promote workplace cyber security awareness and best practices                    | Core           |
| <b>ICTICT608</b>  | Interact with client on a business level                                         | Core           |
| <b>ICTICT618</b>  | Manage IP, ethics and privacy in ICT environments                                | Core           |
| <b>ICTSAD609</b>  | Plan and monitor business analysis activities in an ICT environment              | Core           |
| <b>ICTPMG612</b>  | Manage ICT project initiation                                                    | Elective       |
| <b>ICTPMG613</b>  | Manage ICT project planning                                                      | Elective       |
| <b>ICTPMG614</b>  | Manage ICT project delivery                                                      | Elective       |
| <b>ICTPMG615</b>  | Manage ICT project closure                                                       | Elective       |
| <b>ICTPMG617</b>  | Plan and direct complex ICT projects                                             | Elective       |
| <b>ICTCYS604</b>  | Implement best practices for identity management                                 | Elective       |
| <b>ICTCYS606E</b> | Evaluate an organisation's compliance with cyber security standards and law      | Elective       |
| <b>ICTCYS608</b>  | Perform cyber security risk assessments                                          | Elective       |
| <b>ICTCYS612</b>  | Design and implement virtualised cyber security infrastructure for organisations | Elective       |
| <b>BSBPMG536</b>  | Manage project risk                                                              | Elective       |

## **ASSESSMENT METHODOLOGY:**

Assessment methods used for this qualification are varied and will provide a range of ways for individuals to demonstrate that they have met the required outcomes. Assessment methods may include:

**WRITTEN  
QUESTIONS**

**PROJECTS**

**PRESENTATIONS**

**REPORT  
WRITING**

**ROLE PLAYS/  
OBSERVATIONS**

**PRACTICAL  
DEMONSTRATION  
AND OBSERVATIONS**

At the beginning of each unit, your trainer and assessor will outline the assessment tasks that must be completed.

## **LEARNING MATERIAL:**

Students will be given the learner workbooks for the qualification, which will contain readings for each unit of competency. In addition, the Trainer/Assessor will provide PowerPoint slides to guide students through the unit content.

## **FURTHER INFORMATION:**

For all further details, please refer to International Student Handbook on for all related policies and procedures (policies and procedures also available on [www.nortwest.edu.au](http://www.nortwest.edu.au)) and other important information related to international students including living cost, life and study in Sydney, etc.

Please contact the Administration Manager for further information at
